

2006 Miller Big Blue 300 welder (3500 USD)

Location **Montana**
<https://www.genclassifieds.com/x-333463-z>

2006 Miller Big Blue 300 welder, 300 amp machine, powered by a 3 cylinder Perkins diesel motor, has 110 and 220 power outlets, runs and welds great.
This is a low rev diesel welder and is very efficient. It has some higher hours, but with this motor you should get a lot more life out of the machine.
It can run TIG, stick and suitcase if you have the accessories.
Does NOT come with trailer.

I am asking \$3500.00 cash or maybe a possible trade, depending on what you have.
I would be interested in maybe smaller 4x4 Japanese pickups, mazda, toyota, nissan
Just let me know what you got.

Please text or call only.
