

Battery Chargers for Cordless Tools (, USD)

Location **Minnesota**
<https://www.genclassifieds.com/x-333790-z>

New chargers (I have 2) for a 12V cordless drill/driver, will take B&D, Master Mechanic and others - \$25ea.
 You can always cut the wire in half and wire one end or the other to your particular charger holder if burnt out. I have done it.
