Looking to sell or trade my trx125. Everything works as it should. Good shape overall with a crack in one fender and a few tears in the seat. All the brakes work, shifts fine, good rubber, new battery so electric start works. Tough little quad. Looking to trade for a bit smaller quad for my kids, something in the 90cc range. Can maybe throw a little cash for the right deal. NO CHINESE QUADS please! Might also trade for a dune buggy style go kart or will sell outright for \$850. Lemme know what you have.
