My friend's little girl has lost her dog "Daisy". I do not know from the exact location she was lost at this time, but will update the info as SOON as I speak to her tomorrow morning. This little girl is VERY upset and loves her dog. "Daisy" is an older pit bull or pit mix, and VERY friendly, wagging her entire behind, instead of just her tail. If you think you may have seen her, or have ANY info at ALL, PLEASE contact Carly or Jenny. Please help Daisy find her way back; the family just moved, so she is new to the.
