If you are looking for a good tennis match/hit I can help you out. However, each hit will either cost you money or make you money! \$25 will be put on a set and a second set can be played if we both agree to it. I am just trying to play some practice sets with some pressure! If I am too good for you, just think of it as a private lesson. And if you are much better then me just think of it as making easy money! However, if you don't want to handle business this way, we can do it another way. We can play a set or two, how much ever we get through in a 1 hour and fifteen minutes, and between change overs or between sets, I can give you strategical and technical advice. However, this will cost you a flat rate of \$30. Either way I believe you can gain a lot no matter what! Contact me through email to decide on a location and time if you are.
