Would you like to have a heirloom veggie and fruit garden? Would you like to have a garden without the use of chemicals? If you do, I am the person who can make sure you have a fun, flavorful and successful garden.

Hello, my name is Lucy Price and I have 20 years experience in landscaping, growing, and selling my heirloom produce (the best in flavor). I am no longer selling a product. I am offering my services as a consultant and overseeing your garden. If you love good food and like to entertain then you are in for a special treat. Your family and friends will love you for it.
