ICG is an independent market research firm looking to get first-hand feedback from Adults on the ways you approach tasks, creative thinking, deadlines, stress, organization, and communication. Whether you struggle or excel with these responsibilities we would like to hear from you. We are hosting an online research community where you will be able to share your experiences and connect with other participants from across the country while getting paid for your time.

Are you better at coming up with new ideas or are you stronger at following detailed steps to complete tasks? When it comes to personal management and accomplishing goals in your life we would like to know what has challenged you, where you have had success, tools you have developed, and more about you just as a person. Our private online community will run for 12 months, and functions as a social network where, at your convenience, you and a select group of other community members can talk about your life, connect with others, and inspire new ideas for organizational products and services that could help people in the future.

In addition to benefitting research, participants will receive a base compensation of \$20 a month for responding to a short group of research questions posted each week. Additionally, all participants will have a chance to win an iPad or other monetary prizes multiple times throughout the duration of the online community.

If this sounds like something you'd be interested in, please follow the link below to determine if you're eligible to participate.
