

# Brand New Small Retail Storefront Menu Can Cabinet Sign Business Signs (300 USD)

Location **Washington**  
<https://www.genclassifieds.com/x-335648-z>

I have a number of professional indoor / outdoor aluminum retail business sign cabinets for sale. These are all metal sign cabinets made out of heavy gauge metal (aluminum). These sign cabinets were custom ordered for a business and were never used, they are new in the box and are fully complete. Just wire then to AC source.

These signs can be a single-sided or double-sided can signs. These signs were designed for illuminated plexi panel with a logo on it to be slid into one or both sides of the sign. I can also help you find / recommend a company to make you the vinyl insert for a cheap price.

These signs are brand new in the box and can easily be made into your business with a simple vinyl logo on plexi. This sign cabinet cost \$2,400 new and is the highest quality cabinet made. The sign has a solid all metal aluminum frame and outside aluminum skin. This sign will never rust. The sign is fitted to take modern florescent tubes. It has a modern low energy florescent transformer and all the wiring. The sign is fully up to modern electrical code and is UL rated for outdoor and/or indoor use. It has all UL certification needed to be installed in a commercial business or retail space and it could be used as an exterior or interior business sign. There is nothing needed for this great sign to be installed. The sign has all the hardware needed to mount the sign. The sign is designed to be "pipe" hung (double-sided sign) from a loadbearing support, pole mounted from the ground (double-sided sign) or can be mounted directly to a flat wall (single-side sign). The sign weighs about 50 pounds. The sign is a blank canvas for any business name or mounted indoor/outdoor for lighted menu items. (Great size for espresso stands). You can put

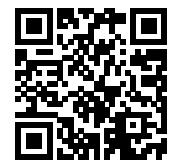

your own business name on the sign and have a professional sign for a fraction of what a new sign costs.

---	--	--	--	--	--

Sign can be mounted vertically or horizontally.  
 Actual Sign Size Measurements: 31 1/2" high x 24 1/2" wide x 8 1/2" deep.  
 - Actual Sign Size Measurements: 30" high x 24" wide x 8 1/2" deep.

A few other sizes available some new some used.

These signs also have a great clean modern industrial look. It's made out of aluminum metal and can be left that way or painted to match your building or interior. These signs have a great shape and style to it. If these are used as menu signs the inserts can easily be removed daily or weekly to change the menu.

---

special.

There is nothing needed for this sign to be installed. The sign just needs to have an AC plug added and it can just plug into any wall outlet. You can just set the sign in a window and just plug it in. The sign is fully up to modern electrical codes and could get UL certification easily, so it could be used as an exterior business sign or be installed in any commercial, business or retail space. The sign can easily be "hard" wired if the sign is going into a permanent location.

This is a great vintage sign to add to any Eames Era Mid-Century Art Deco interior design. This is a Las Vegas style outside sign. These neons sign were used at parking lots, car lots, drive inns, movie theaters, motels, diners, restaurants, gas stations and other automotive roadside businesses across America. This sign can be used in any business, office, loft, home or studio. This would be a fantastic addition to any home decor, loft, retail store, gas station, garage, studio, game room, man cave, restaurant, bar tavern, pup or neons porcelain sign collection.

Asking \$300 each

I have a number of these available. If you buy more than one I will give you a volume discount.

Cash Only!
