Hello there!
 Our sweet girl needs to find a new sanctuary.
 We have had her since she was five weeks old and she will be 2 years old at the end of May...
 She is an amazing dog, but has lately been showing aggression towards us. She wants to cuddle and be spoiled, but she'll sometimes show her teeth to us.

We think she'd be great with a single person who took her everywhere- she's a great copilot! She loves the dog park, but doesn't really like other dogs being in her home for long periods of time. She also absolutely loves to swim and play fetch and go on runs!
 We are heartbroken, but sometimes the right choice isn't the easy one.
 We will be very particular about what kind of home she goes to. Please contact us with any further!
