Help me with my research on early family relationships! I am conducting an online study and I am hoping to recruit a diverse sample of adult participants (18+) from all over the U.S. I am looking for adults raised by same-sex parents, opposite-sex parents, or a single parent. The study is a questionnaire that will take about 5 minutes.

After completing you can enter into a raffle to win a bluetooth speaker. Please help me out by taking the survey! Thank you! Link to the survey:
