For many women who cannot use their own eggs to conceive, the feeling of not being able to begin building their family can be devastating. Egg donation provides a unique opportunity for young women to give an invaluable gift to these women so they can have the family they desire.

Why you should choose the PreciousEggs Donation program:

• Women who are accepted as anonymous egg donors can begin their donor cycle immediately instead of waiting 6 months to 9 months to match up cycles with a donor recipient

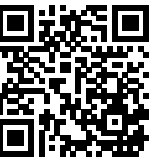

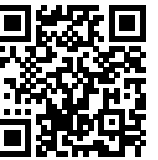

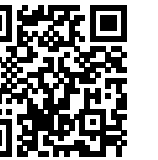

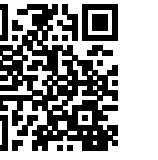

• Donors will receive free annual exams up until age 31

• The donation cycle is conveniently built around your schedule

• Compensation of \$8,000 is processed immediately after your donor cycle

• Donors who refer other women that successfully complete a donor cycle will receive additional compensation

• RAD offers free fertility preservation for donors on their third
