Being cared for by a babysitter can be fun! Dedicated and responsible caregiver will make time apart easier for the entire family. Parents, don't worry about being rushed! Enjoy yourselves. Help is here! I have worked with children of all ages for over 19 years; in both domestic and school settings. Currently, I am employed as a part-time nanny. However, my main job is academic tutoring for grades K-12th.

I have all of my certifications, and a clean driving record as well. I am not only available for date nights, but for school breaks and most sick days. My hourly rate is \$ 12-14 dollars; which depends on the needs of the household, and the number of children under my supervision.
