Hi Craigslist,

My boyfriend and I are going out of town the April 30th - May 3rd (last weekend in April). We just got a new puppy (Shih tzu mix) and he was born on Feb 16th. So he's still very tiny and will need constant attention.

This would be a good position for someone who works from home, or is a stay at home mom, etc.

This could be an ongoing position for when we go out of town (for the right person).

I will need references.
