I'm Jake and I make websites for way less!!!

I'm a freelancer which means that you pay 1 guy to build the website. I don't have a sales team, marketing team, building with expensive rent or anything other than my skills and my time.

If you need to contact me you can call me on my cell phone.

Watch my Video to learn more <http://webdesignbyjake.com/getstarted/>

Call me now!

Here is what I offer on every single order

Easy Setup- With webdesignbyjake.com you will receive a beautiful new web presence that will help your business grow to its maximum potential.

Full Website or WP Storefront- When we design your new site, you will get up to 10 pages designed by an expert and the necessary programming to ensure full function of your site.

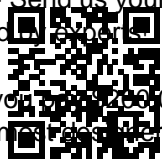

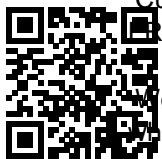

WordPress CMS- Every website we make will come with the WordPress dashboard where you can quickly add content, images or videos in just seconds. We include FREE video courses to help guide you on further development of your new site.

Custom Logo & Graphics- Send us your images and we will use Photoshop to create a truly high definition image with high resolution. With every order we will include a FREE logo and graphics designed by an expert.

Website Design- When you pay \$299.00 or more for a website, you expect to have your work done as fast as possible. We can finish your site in 1-5 business days which is much faster than most agencies.

Search Engine Optimization- We will get your site up with all of the bells and whistles that will allow you to make SEO changes to your content in just moments. You don't need to like writing content or doing your own SEO than simply call us right now to discuss a plan.

Professional Contact Form- Customers will be able to visit your website and directly ask you for more information with a custom contact form. Stop wasting traffic and start generating leads!

Unlimited Content to Pages- No matter how much content you want on a page, we will get it done! We totally understand that content is king in the search engine world and will upload as much content as you need.

FREE PHOTOS- As I have told many people in the past, you can't just take photos from Google because you may be subject to copy write laws. We will provide you with up to 5 images that you can use on your website.

Unlimited Links- Helping your customer's reference information is very important and links are a must with Search Engine Optimization. With Web Design by Jake you will have no limit to the amount of links you can on your website.

Top Support in America- Because I'm a freelancer you will work directly with me on your website. From the first conversation to the finalization you will talk to only 1 guy! If you wish to call a call center in another county than by all means look elsewhere!

Unlimited Revisions- This is a must! If you pay money to have a website than you should be able to change the looks until you are 100% happy!!!

Simple Navigation- Did you know that not having a simple to navigate website can cause people to spend much less time learning about your company? If you want people to stay put and read your content than you will need a simple website with easy navigation.

Free Training Courses- Once your website is done you might want to add some content or images down the road. We offer FREE wordpress classes that will show you how to do simple changes such as adding images, videos or content in just seconds. This will keep you from having to hire someone to make simple changes that take only moments to make.
