I have several bags of commercial grade lawn Preemergent crabgrass control for lawns. I own a small Lawncare business and this is what I put on my customers lawns. The analysis is 14-0-7 and one bag covers about 16,000 sq.ft. The Preemergent is a lot better than what is in the Scotts product and I can sell it to you cheaper than you will find at the box stores. the picture is from Lowes 15k bag and 5k bag. Call Mike 341
