Looking for a reliable freelance graphic designer who is also available during the day. I'm looking for someone who knows their way around a Wordpress template ... both the installation and customization of such. You should be more graphic designer than straight up programmer ... I will supply the theme and the content ... I need you to make it look the best it can given those tools.

- 1) You must be proficient in Wordpress and have an eye for design.
- 2) You need to be available during the day. Not whispering from your cubicle at work. Available. I don't need to see or hug you, but I do need to get you on the phone from time to time.
- 3) You will get paid when I get paid ... approximately Net 30 days. If that doesn't work for you, please don't bother replying.
- 4) You must be based in St. Louis ... looking for a long-term, reliable resource. If you don't live in the STL metro, don't bother contact me. I'm looking at you, "Kevin" in Mumbai.

Include the word "Wordpress" in the subject line or it will be tossed ... I'm warning you with peace and love. Please include a phone number ... I will contact suitable candidates.
