

## need a diesel mechanic (Raleigh area)

Location **North Carolina**  
<https://www.genclassifieds.com/x-338535-z>

I have a mobile generator that is powered by an air cooled 2 cylinder Lister diesel engine. It was formerly a light tower unit. Engine runs & generator works. But I think the engine has a miss in it. Looking for somebody who knows anything about these old Lister engines.  
Call Ron (nine++one++nine) 669
