Hello everyone,

I recently had one of my beloved cats get out and am very worried about her. She is almost 2 years old, has never been outside before and I live on a very busy street. I lost my cell phone which had a lot of pictures of her on it and didn't think about taking anymore when I got my replacement phone, so I do not have a recent photo of her but her description is:

Female,

Spayed

Name is Teddie

Healthy looking (she's not fat but not skinny either)

White spot on her chest

Has an upper respiratory infection so she snorts a lot and loud at times. Sometimes her nostrils get blocked up with snot and "crusties"

She is very friendly (atleast she was in the house, now that she's outside I don't know how she will be)

She does have all of her claws as well.

My kids and I along with my other cat are very sad and worried about her. My kids constantly go out side and call her and the other cat sits at the window and meows all the time.

I am in the 5900 block of Pearl Road.

I have called both the Parma and Parma Heights police departments along with the animal controls and wardens but no one is willing to help me find her. I invested in a live "humane" trap Incase she does return but I have not found or caught her yet. If you see her or have found her please contact me. We miss and love her very much!

Thank you for your time in reading this. I hope we find her soon!

God bless,

Lost cat (ParmaParma Heights Ohio)
