

Organic, Natural Sunless Spray Tan Luxury Service and Customized (Phoenix)

Location **Arizona**
<https://www.genclassifieds.com/x-370135-z>

Glow and Go Mobile Sun of Scottsdale is a mobile Spray Tan Company serving all of Scottsdale, AZ. I am a Board certified cosmetologist, makeup artist, waxing specialist who is now doing airbrush spray tanning and its completely mobile!

www.facebook.com/GlowandgoMobilesun

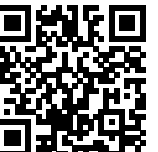

I pack up a tent, my equipment and I set it up where ever you'd like me to spray tan you. The convenience and comfort of being in your own home or office is ideal! I normally charge \$75 for this but I'm new to the area and only charging \$40 for new clients. I also include an exfoliating treatment, and a prolong kit too!

Included in your package is an exfoliating mitt, a full sized self tanner, a shower gel and an ph balanced spray. My products are organic and the best on the Market!!

I am a makeup artist and expert waxer as well.

Call Jennifer to learn more. Book a customized spray tan today! I will also give a special price for groups of 4 or more or give be host a free spray tan.

Follow these preparation tips before Sunless Tanning:

-
- Bring looser fitting darker colored clothing to your airbrush appointment.
 - Do not wear wool, nylon, or silk during or after your sunless application and for at least 8 hours as DHA may react with these fabrics and cause staining.

AFTER Your Sunless Application

Wait at least 8 to 12 hours after application before you shower. This will allow time for the self-tanning reaction to occur on the skin. If you need to shower sooner let your airbrush technician know before your session and she can custom mix the formula accordingly.

Don't worry if you see color wash off from your first shower, this is normal. What you see washing off is the immediate cosmetic bronzer and what is left behind is a beautiful sunless tan.

Do not apply moisturizer until after your first shower, for this could affect the immediate reaction of the sunless solution on the skin and cause streaking. When showering we recommend a high quality body wash such as Norvell® Hydrating Body Wash.

Do not exercise until after your first shower.

Moisturize 2-3 times daily, especially after bathing, to maintain your sunless tan. For best results use a water based moisturizer. Don't use oil based moisturizers, they can cause blotchiness.

Do not apply moisturizer until AFTER your first shower, for this could affect the immediate reaction of the sunless solution on the skin and cause streaking. When showering we recommend a high quality body wash such as Norvell® Hydrating Body Wash.

To help extend your tan we recommend Norvell® Prolong Tan Extender.

Do not exfoliate skin for at least 48 hours after your sunless tanning application. When you do exfoliate, do so gently and evenly with Norvell® Moisturizing Body Scrub to preserve an even sunless tan.
