If you need a laptop, we will find the portable one. (This is very important.)
 If you have other computers at home, we will find the main one and make sure
 the system is not infected. We just need the box itself.
 (unless it is a micro or mini system that has a specific adapter.)
 We will need the password for each user.
 Complete information about the problems and/or issues you may be having.

We will give you an estimate of the total cost to repair your PC/Laptop and an estimate time for
 completion. Once the PC/Laptop is complete; we call you and let you know that your system is ready to
 be picked up. Simple.

No Appointment Necessary, walk-ins welcome.
(see hours and map below)

** We Accept All Major Credit Cards, Check, & Cash
