

Computer Repair Free Evaluation open 6 days a week (Rehoboth Beach)

Location **Delaware**
<https://www.genclassifieds.com/x-370556-z>

Delaware PC Services, LLC offers FREE Same Day Evaluation, when you approve the work - repairs begin the same day*. (* if parts need to be ordered it may take @3 days for delivery)

How it works:

1. Bring in your system, no appointment required
2. We look at the system right when you bring it in
3. We ask specific questions relayed to your issues
4. We examine it for errors, problems, and functional issues
5. Discuss repair options that you are comfortable with
6. Once the repairs are accepted, the repair begins the same day

What we will need:

1. If it is a laptop, we will need the power adapter. (This is very important.)
(all laptops have different adapters according to the make, model, and manufacturer)
2. If your system is a PC, then we just need the box itself, no cords.
(unless it is a micro or mini system that has a specific adapter.)
3. We will need the passwords for each user(s).
4. Complete information about the problems and/or issues you may be having.

We will give you an estimate of the total cost to repair your PC/Laptop and an estimated time for

completion. Once the PC/Laptop is complete, we call you and let you know that your system is ready to be picked up. Simple.

We are only looking for problems and/or issues you tell us about. We gently do not look at anything, but focus on the problem you state. If you have any other issues with your system, software and/or functionality - please mention it when you bring it in so we can resolve all of your issues at the same time.

Why do we offer FREE evaluation? A lot of times people think that their system is either not repairable or that it will cost an arm or a leg to fix. What we found is that most systems are not as expensive to fix as people think or were told by the big box stores and/or their neighbor. Or that their system is 'too old' to repair, most of the time that is not true. The FREE Evaluation allows the customer to get a better idea if
