Manager and songwriter seeks solo artist or band with recording studio for "spec work." Prefer self-contained artists who are singers, multi-instrumentalists, and producers. Cover bands are welcomed. Some record an EP or CD, but most start with one song on a trial basis.

I am an ASCAP songwriter and have received many offers for publishing, licensing, and digital distribution deals both here and abroad. I have also secured radio airplay and publishing or licensing deals for a number of artists who have recorded my songs.

Must have access to recording studio and be willing to record outside material. Most genres except rap or hip hop. In exchange for demos of my songs, I'll be glad to pitch the recordings to my contacts within the industry. In addition, I'll be glad to shop your original songs.

So, hit me up if you are interested in a barter. Please provide a hyperlink to your music or video. Thanks.
