## austrailian shepardchow mix puppy (Fayetteville, arkansas)

**Arkansas** Location https://www.genclassifieds.com/x-370615-z

Up to date on shots and almost completely potty trained! He is still working on it, but hardly has had any accidents in the past two weeks. He is 10 weeks old. We thought we could handle a new puppy but we just don't have time or space for what this energetic baby needs. He responds to Kenji or Kenny but is still young enough to change his name. Text for more info and more.
