My husband surprised me with 4 female mice and a cute little cage for them.. I love them, however I underestimated the time it would take to properly care for them. So I am having to find them a new home. He bought them at Petco 3 weeks ago. He paid 40 for the cage, 5 for the food, and 7 for the bedding. I also bought some cleaning/deodorizing spray to clean their cage with. The mice were 3 dollars each. All I am asking for all of the mice and their set up and the rest of their bedding and food (which is still at LEAST half full, probably more than that) and the cleaner is \$50.00. I think that would be a fair price, considering we spent more than that on them. Please, if anyone is interested email.
