I need a good helper\assistant to help me with tile and woodworking jobs. This is a full time job not day labor. However I will conduct a working interview with I am happy to pay at the end of the day today. You must have your own vehicle not a ride. And some construction knowledge. Job starts today at 9am you must be pretty healthy as well because there is some medium lifting. Please email me your experience and if you can start this morning. Thank
