I have a 16 week old puppy. She is german shepherd great dane mix. Super sweet girl. Up to date on shots and worming. She is so smart. She knows sit stay lay down. She is so energetic and is eager to please. She is in the process of getting potty trained and she does really good. I'm Devistated to have to do this but things happen in life and things don't work out. Guys I know that there are many people that will read this ad and say " you shouldn't have bought her if you weren't planning on keeping her."

I was planning on keeping g her and I invested so much money into training her and getting her everything she needs. So please keep the rude comments to your self. It's painful as it is to rehome her. Rehoming fee for her is \$600. Thanks for looking. Serious inquiries.
