Hi Folks. I'm a guy in my early 40s seeking guys or gals to be friends with, who enjoy guitars and guitar music. I'm not looking for bandmates or a hook-up, just cool people to talk to or hangout with who enjoy cool music. I like concerts, open-mic, festivals coffee house or bars that play guitar based music. I would also like someone to practice and learn songs and technique with. But that's not as important as just hanging out and being.
