Lets be perfectly clear about the Republican

Let's be perfectly clear about the Republican Agenda

1. Billionaire Driven State and Federal Level Job Killing Austerity.
2. Roll back voting and reproductive rights by any means necessary.
3. Deprive the working poor of health care.
4. Destroy agencies that protect the environment so Billionaire owned companies like those owned by the Koch Brothers can pollute our water and air.
5. Destroy agencies that protect consumers and small businesses from predatory banks.
6. End all programs that feed the poor, elderly and disabled as a first step to eliminating these entire populations. Committed only to survival of the fittest.
7. Protect all loopholes in the tax code that keep millionaires and billionaires from paying their fair share of the bill to run this country.
8. Destroy The American Democracy by not limited political contributions thus allowing Billionaires to buy candidates at all levels of our government.
9. Even in the worst economic time for the middle class since the Great Depression, pretend that the only reason that people are unemployed is that they are lazy.

Don't Be Boondoggled
By Republican Billionaire Propaganda
