Do you have Peripheral Neuropathy in your hands or fingers due to Rheumatoid Arthritis, Multiple Sclerosis, or some other medical condition?

Interface Analysis Associates is in need of individuals with Peripheral Neuropathy in their hands or fingers for an upcoming study taking place in Saratoga, CA.

Dates for this study are still to be determined.

Compensation for taking part in this study will be \$150.

We are always looking for new participants! If you have not participated in one of our studies before, please contact us!

To be screened, please contact us at or reply to this post (please refer to "FCS study")

THANK YOU!

Interface Analysis Associates (IAA) is a Bay Area health care consumer research firm that conducts usability studies for medical devices and drug delivery systems. Our research helps to create patient-centered products that are safer, easier to learn, and more enjoyable to use. In our studies, we let you simulate use of a new device, procedure, or set of instructions, and ask for your feedback and preferences.

Remember, everything is simulated in our studies - you are not being given any drug, injection, etc.
