

Family Dogs Central (North Bay)

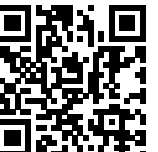

Location **California**

Our Shelter is currently hosting some really nice Family Type Dogs. Photo 1 is S'More. This Adult F is one of the sweetest dogs we know. Good with other dogs, Adults, Kids, to know her is to "love" her. 2nd dog is Caleb, a very handsome Border Collie X, 2 years old and weighing 57lbs. Caleb is playful and sweet, he lived with kids and other dogs. 3rd photo is Bradley--Bradley is 2 years old and weighs 55lbs. Bradley has one of the gentlest, most docile dispositions we know! His mellow, loving nature makes us think he would be a great family dog. This handsome guy will be a wonderful addition to any home as long as he gets oodles of love! Photo 4 are Buster Brown and his Sister Coco. Buster was brought to us by his owners (with his sister Coco) because they were moving and could not take them along. Buster has lived with small children and is gentle and affectionate. Of the two Buster is the more confident and keeps an eye out for his sister. Buster and his sister lived and slept outside so our hopes for both of them is that they find homes where they can come inside and be a part of the family. We normally do not push for siblings to be adopted together, but for these two who are so very bonded, we are requiring that they be adopted together. They are such a great pair it will mean two very happy dogs!
