Female Zebra Finches for sale, Mom/Daughter.

- *They are in a finch flight cage that I purchased from Petco for \$49.
- *They have 4 natural wood branches
- *2 Sand Perches (for keeping nails & beaks trimmed.
- *4 Cuttle bones (they lay a lot of eggs)
- *3 Nests
- *Food & Water dish.

I adopted the birds about 3 months ago & they have been great (extremely active & bonded) They are let out of their cage from morning til night & get a long with my 8 parakeets very well. They are fed fresh organic fruits & veggies every Morning along with seed/pellets/millet & occasional treats. I also add vitamins to their water daily. The reason I am looking to rehome is that I have other rescue birds that strongly need my attention to be able to grow emotionally & physically stronger so that someday too they will be able to find their forever homes. I am tho in no rush to rehome these finches & will stand firm on an \$85 rehoming fee. I have worked the last 3 months to get them in the best health possible. (When I received them at first they barely even had any feathers) Well thanks for looking & if you think your the right fit please call (no txt) or email me. -Jesse
