Aloha!

Thanks for taking the time to view my listing! They're a number of excellent photographers here in the Islands, with a variety of shooting styles. The photographic experience should be fun, relaxed and creative, all for making great images!

I've been in the photo industry for a number of years, starting with film/print and on to the every growing digital age, a medium that allows us to grow as photographers each day.

If you're shopping for a photographer, I can provide services to work around your needs and budget! I specialize in Weddings & Engagements (Local & Destination), Commercial & Residential interiors (Real Estate & Print), Portraiture (Classic to Retro-Edgy), Events, Parties, Product (Website & Print) and Model Portfolios (on location).

All of my basic Photography services include a fully edited High Resolution Photo DVD with Full Reprint Rights, so please feel free to contact me with any questions regarding my services.

Samples of my work can be viewed on my website: www.eresphotography.com

Thank You & Aloha!
