BUSY mom with a messy house needs help. I am looking for someone to clean/organize and do laundry. I am not going to lie my house is a mess. There are 2 adults, a 6 yr old and two jack russell terriers in my home so you must not be afraid of dogs. My husband works from home and he will keep the dogs with him most of the time when you are there. I am looking for someone to clean my home, do laundry and dishes and organize as needed. I work a lot and just do not have the time. I have a small 3 bedroom 2 bath house (1 room is used as my husbands office and you would not clean that one). It is 1380 sq ft. I have granite countertops in the bathrooms and kitchen and stainless appliances including a dishwasher, and will be getting front loading washer and dryer shortly. I think as messy as we are we could probably use someone weekly. I am not sure what something like this would cost. Please email or text me and let me know what you think.
