I have 5 Male lab and Great Pyrenees Hybrid pups. These are the best hybrid for families. They have the playful, obedient, nature of a lab and the gentle softness of a Great Pyrenees. All are eating moist dog food. They are almost 5 weeks old. I will keep them as long as I can so they can be old enough to rehome, They will be Large dogs. I will be very picky on where they go as they are wonderful little babies who deserve a good home. Any Questions you can contact me. If you are interested please call me. Thank!
