I have translated a 100 page book on college admissions into Spanish so that parents can better understand the process of preparing for, selecting, and applying to colleges. I have near-native proficiency, so it should be 98% ok. It's that remaining 2% that concerns me. I need a native Spanish-speaker to read it over and make any corrections. You can work from home, of course.

He traducido al español un libro de 100 páginas: "A la Universidad! Lo que los estudiantes de secundaria y sus familias necesitan saber sobre la selección, solicitud y admisiones a las universidades estadounidenses," para que los padres puedan entender mejor el proceso. Creo que será como 98% correcto, pero me preocupa el otro 2%. Puede trabajar desde donde sea, naturalmente. Quiero terminar este proyecto tan rápido como sea posible.
