

Statistics tutoring (Carmel, Fishers, Nora, Indianapolis)

Location **Indiana**
<https://www.genclassifieds.com/x-371669-z>

So you are struggling with statistics and cannot make sense of the p-value, test statistic or the critical value; or correctly apply the multiplication rule for independent and dependent events.

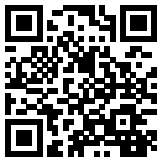

I will help you understand the concepts in simple English without using jargon so you never have to guess, or memorize solutions, or hope partial credit helps you get a passing grade.

I tutor all levels of statistics and probability: from high school through college and can help you learn Minitab and JMP. Will provide references of past/current students. Contact me for rates and.
