

Expert math tutoring (Carmel, Fishers, Nora, Indianapolis)

Location **Indiana**
<https://www.genclassifieds.com/x-371681-z>

I have a PhD in mechanical engineering and over six years of tutoring and University teaching experience. I offer high quality tutoring at all levels of math from high school and AP math to advanced college math.

I will help you get better grades by improving your conceptual understanding and problem solving skills. I do what few teachers/tutors can: explain the most complex ideas in jargon-free language using analogies, graphical methods and drawing examples from everyday life. Most students see improvement in their test performance within 1-3 sessions (try me for yourself). I provide references of past and current students.

Willing to meet in Downtown Indy, Nora, and suburbs of Carmel, Fishers, Noblesville and Zionsville. Contact me for rates and.
