

Sound PA system and audio engineer for bands, festivals and events (Lakemoor, IL)

Location **Illinois**
<https://www.genclassifieds.com/x-371807-z>

When it comes to finding a reliable sound company don't trust your event to just anyone.
Allow me to engineer a mix your audience will enjoy.
This is what I do full time. I love what I do and I'm sure you will too.
I work with several systems and I use the one best suited for the venue and music.

My rate for the Chain of Lakes area starts at \$500. This is what I bring for starters.
X32 digital mixer. (Yes everyone has one but the engineer operating it makes all the difference)
EV, Shure and CAD Percussion microphones.
SLS Line array, JBL, EV, Peavey DTH touring series speakers and subs. (Dependent on venue)
Crown or QSC Tri-amp rack.
Up to four stage mixes standard. More if needed.
Engineer and assistant to deliver, setup and operate equipment.

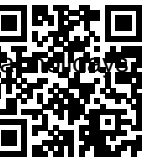

Benefits to hiring Bundy Audio.
All aspects of sound system tuned and line checked before sound check.
Experienced in dialing in sound checks quickly.
Clean stage void of unnecessary cabling.
Reliable AC drop boxes where the musicians need them.
All cabling follows straight lines outside of performer space.
Engineer continually monitors individual stage monitor mixes as well as house mix during event.

I don't just push faders I try to create a memorable experience for everyone.

Additional services may apply for travel outside of local area. Please see on site for more events. I can perform on or near your stage and can be used for lighting and other equipment as well.

I can easily accommodate larger events and most touring techs.
Look at bundyaudio.com to learn more.
Contact me to discuss details of our next event.

Thanks,
