I have for sale a 1989 Dodge 250 with a 5.9l Cummins. It is in very good condition! Has power locks, power windows, power mirrors and cruise control, all of which work! Front end has had a lot of recent work done to it, and has new tires on it(nothing fancy-as you may see). Tread is at approx. 85%. Here's a list of what's been done:

- 3" rear drums and brake shoes
- New rear cylinders
- New steering box and pressure line
- New valve cover gaskets
- New brake booster
- New calipers and brake lines on front
- New upper and lower ball joints
- New upper and lower A-frame bushings
- New serpentine belt
- New door hinges and bushings

Please contact me via text or email. Text would be better. I don't have to get rid of this ol' pickup, just have too many and think someone else should enjoy! Clean title, Cash...
