Hello people of Craigslist! I'm looking for a fun, very outgoing, attractive and fit female to partner with to perform with for webcam shows. I'm an athletic male who is starting a part-time cam business to make extra money. Webcams are a flexible way of making money and are a great part-time opportunity for college students or young professionals with busy schedules! If you are business minded and interested in a part-time opportunity feel free to contact me. Please include a short description of yourself, list any relevant experience you may have, and attach a clear photo if you are comfortable. Must be+
