I can do any 2 car garage floor or equal square footage for \$700.00, NO hidden costs. This includes all prep such as cleaning oil stains, grease, and all debris, then acid etch to create a superior bonding surface. I use high quality materials and apply 2 coats. This system is a 2 day process. I have 25 years experience in the Painting Trade. Like us on Facebook or call "The EPOXY FLOOR Expert" @
