I can do any 2 car garage floor or equal square footage for \$700.00. NO hidden costs! This includes cleaning all oil stains, grease and any debris, fill all cracks, then acid etch to create a surface for superior bonding. This system I use is a high quality product and is a 2 day process. I have over 25 years in the Painting Trade. Like us on Facebook or call "The EPOXY FLOOR Expert". References upon request. @
