

St. Bernard mix puppy (Coats, nc)

Location **North Carolina**
<https://www.genclassifieds.com/x-372332-z>

Hello everyone this is Barney. He is around 8 weeks old. Me and my daughter found him beside the road when he was around 4 weeks old. We think that he was dumped out or he got lost from his mother and other litter mates. The vet said he is a St. Bernard/lab mix but we don't know for sure, since we didn't have a DNA test done. He has had his first shots and we have de-wormed him. Please email me for more info about barney. Thanks in
