

Kit Kat, stunning adult calico (Raleigh)

Location **North Carolina**
<https://www.genclassifieds.com/x-372347-z>

Kit Kat is a lovely, long, and lean kitty that loves to be petted. Her owner left for Iraq and now Kit Kat needs a new home. Until this graceful feline knows you, she is shy and will hide. In a day or so she will venture out for a petting, sleep on your bed, and even climb into your lap! She is very affectionate but doesn't like to be picked up. Kit Kat is coexisting in our 8 cat home, but would prefer to have less feline company. If you think this regal lady would fit into your home, complete an online application to meet her. est dob 10/19/04

Reduced fee of \$90 (since she was already spayed) includes microchip, FIV/FelV testing, vaccines, deworming, and flea prevention
