

New Photography Project (New Orleans)

Location **Louisiana**

Hello,

I am a local photographer in the New Orleans area. I want to start a new project based around the theme of erotiscim. I would like to shoot the subject full nude and let them explore their bodies and get lost in the moment. Your face will not be in the photos. Looking for all ages 18+ and all shapes and sizes of women. I know this may sound like a scumbag scheme like other posts on Craigslist looking for girls to manipulate. But I promise you it's not. I am a real published photographer with a solid body of work. I am willing to pay for your time \$60 a hour. If this interests you at all and you're curious and want to make a little money then write me a message and I will send you a link to my work. Looking forward to hearing from.
