Re-homing 3 ferrets that include cages and all accessories for firm price of \$200. If you already have a cage and all necessary supplies and accessories from previous or current ferrets, we can lower the price to \$150 firm. Our 3 ferrets (1 male & 2 females) are looking for a forever home: Koda (male), Mia & Meekah (females). They cannot be separated; they've grown to thoroughly enjoy one another's company. They're Marshall Ferrets: spayed/neutered, de-scented, and received first canine distemper vaccination shots. Mia (born March, 2014) & Koda (born May, 2014) are both cinnamon sables, and Meekah (born December, 2010) is a sable ferret.

Their cages and accessories include Marshall Small Animal Penthouse, small travel cage, pet carrying case, 8 panel playpen, litter pans, hammocks, blankets, toys, harnesses, all the essentials (e.g. ferret shampoo, ear cleaner, first aid kit, styptic gel, etc.) and more.

We're planning to travel for long periods at a time. Last year we had to board them up a few times, anywhere from one week to a month and a half. That gets extremely expensive and it's not fair to them. It can be very stressful so we'd rather re-home them so they can have the play time and steady lifestyle they deserve. We're not looking to give them to just anyone willing to pay. We want to make sure they're truly going to a good home. Knowledge of caring for ferrets is a must. If you don't know how to care for them, you need to do your research before even thinking about buying one (and that should apply to any pet). We don't want them to go from house-to-house. Re-homing them to the proper household, in all aspects, is very important to us.

PLEASE only serious inquiries only. We can provide more details about them individually, provide additional photos (even videos of them playing), and answer any questions that you may.
