Two adorable house-kittens (they're brothers) are 6 months old and in need of a forever home. These two little orange and white cats are very good with human friends and family.

Yoda purrs when his ears are scratched. Excellent bug catcher. Luke likes to lay next to you. Hates the smell of mint. Both cats are fixed and even the vet said they're extra super cute so that says something.

They have always been house cats. We knew someone who recently moved and needed to get rid of them. We'd keep them ourselves, but we already have two cats and only live in a small townhouse, so not enough room!

Crazy people need not apply. ;)
