2013 Ford Taurus SEL leather - 22K Miles This is "The One" (EXCELLENT)

Last year when we the hail storm took our 1st Taurus we searched for an identical replacement - they aren't always what they appear to be when you're "shopping" ... then we came accross this one from the original owner.

always garaged now and through it's lifetime. Miles are all highway as they took it to arizona a few times and we just take it to the marina with our grandkids: 3rd grandkids means we need a bigger (suv) style vehicle to haul them to the dock, etc! :)

I searched hard for this and knew it was the one when we found it - you will feel the same when you see and drive it (needs nothing & has factory warranty left).

ALSO: It has the interior/ exterior protectant packages (\$1800 value), tint all around, etc... (you won't have to add anything to this beauty!!

it is priced at high book but worth every penny!! - miles are 22,750 (all highway)
6 cylinder, auto, touchscreen, heated leather, drives like a dream, clean title, never wrecked/ hit, etc

write here from craigslist or text/ call

four zero two six four nine zero two seven eight

Music is available for pre-order to persons said here in the Midwest (NE, IA, SD, etc.) will NOT be a long distance ship! no shipping!
