

HEADLIGHT LENS RESTORATION (TRIANGLE TRIAD AREAS and SURROUNDING

Location

North Carolina

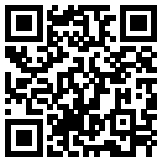

<https://www.genclassifieds.com/x-372928-z>

Headlight lens restoration helps make your vehicle look like new again as well as maintain the safety of adequate lighting from your headlights when driving at night. My service consist of two packages the \$80 package is the "full service" which involves A five-step sanding and polishing process which restores the clarity of headlight lenses that are considered in poor condition by at least 75%. The second package (which is \$45) is recommended for headlight lenses that have started to show minimal yellowing/cloudiness/scratches but are clear for the most part. This service is very effective in preventing headlight lenses from becoming extremely cloudy and yellow (which hinders Road visibility) as the car ages. Feel free to email for scheduling. (on site services are available for \$10 extra within a 25 mile radius of the Raleigh Durham)
