

# Uhl Stonework amp Epoxy Floors, LLC. (Raleigh)

Location **North Carolina**  
<https://www.genclassifieds.com/x-372949-z>

My name is Richard Uhl, I am a professional Stone Mason and Epoxy installer. I have done Epoxy floors for 9 years and stonework for the last 17 years on the East Coast. We are a new company in Raleigh and we are expanding our reach to more of NC. We offer high quality workmanship while providing a safe and clean working environment. Our prices are reasonably compared to the quality of materials, craftsmanship and longevity of work.

We never use low-grade epoxies such as the ones you might buy at: Lowes, Home Depot and Sherwin Williams..etc. Only High-Grade materials are used such as: Floor Guard, Keyresin and Dex-O-Tex. High-grade epoxies will last 10x longer than low-grade. We grind and shot blast our floors so that the pores of the concrete are open which gives proper bondage between the floor and the epoxy. This process extends the longevity of the floor as apposed to acid-etching. These steps separate us from other epoxy installers who use low-grade epoxies and do not properly prep for installations.

You can choose either Natural or Cultured stone for your job, large or small.

## We Install INDOOR & OUTDOOR:

Fireplaces, Mantles and Hearthstones; Fire Pits  
 Rip-Rap rock for drainage  
 Fountains and Ponds  
 Retaining Walls  
 Patios  
 Etc.

## We do many different VARIETIES OF HIGH-GRADE EPOXY FLOORS, for example:

Coatings

Aggregate

Stain, and Metallic

Poly-Crystalline, SL

Now Offering: Mulch Installation
